VITAKING-AD₃E

With Probiotic & Prebiotic

Triple Action Formula for Immunity, Gut Health & Vitality

— Key Performance Benefits —

- ✓ Strengthens Immune Defense
- ✓ Enhances Gut Microflora Balance
- ✓ Improves Nutrient Absorption
- ✓ Supports Bone & Reproductive Health

Overview

Vitaking - AD₃E is an advanced liquid formulation combining essential fat-soluble vitamins (A, D₃ & E) with probiotics and prebiotics to deliver a complete solution for immunity enhancement, gut health optimization, and improved productivity.

This synergistic blend helps maintain intestinal balance, supports better nutrient utilization, and enhances resistance against stress and infections, making it ideal for poultry and livestock.

Composition

Each 5 ml contains:

- Vitamin A – 200,000 IU
- Vitamin D₃ – 40,000 IU
- Vitamin E – 100 mg
- *Bacillus subtilis* – 5×10^9 CFU
- *Bacillus licheniformis* – 5×10^9 CFU
- MOS (Mannan Oligosaccharide) – 10 mg
- FOS (Fructo Oligosaccharide) – 10 mg

Mode of Action

- Vitamin A maintains epithelial integrity and enhances immune response against infections.
- Vitamin D₃ regulates calcium & phosphorus metabolism, ensuring strong bones and better eggshell quality.
- Vitamin E acts as a powerful antioxidant, protecting cells and improving fertility and immunity.
- Probiotics (*Bacillus* spp.) promote beneficial gut flora, inhibit harmful pathogens, and improve digestion.
- Prebiotics (MOS & FOS) nourish beneficial bacteria, enhancing gut stability and nutrient absorption.

Together, they create a **synbiotic effect**, improving gut health, immunity, and overall performance.

Benefits

- Enhances immune response and disease resistance
- Promotes healthy gut microflora and digestion
- Improves feed efficiency and nutrient utilization
- Supports bone strength and eggshell quality
- Enhances fertility and hatchability
- Reduces stress during heat, vaccination, and transport
- Improves growth and overall productivity

Dosage & Usage

Poultry

- Broilers: 0.5–1 ml per litre of drinking water for 5–7 days. During stress: 1–1.5 ml per litre for 3–5 days
- Layers: 0.5–1 ml per litre for routine use. During peak production: 1 ml per litre for 5–7 days
- Breeders: 1 ml per litre for 5–7 days. For fertility/hatchability: 1–1.5 ml per litre for 5 days

Livestock

- Large Animals (Cattle, Buffalo): 5–10 ml per day
- Small Animals (Goat, Sheep): 2–5 ml per day

Or as recommended by Veterinarian

Presentation

Available in 500 ml and 1 L HDPE bottles

At Rigel Global Pvt. Ltd., we are committed to enhancing animal health, productivity, and overall well-being through advanced nutritional and healthcare solutions. Our Animal Health & Nutrition Division partners closely with farmers, veterinarians, and feed manufacturers across India and international markets, delivering scientifically validated products that support performance optimization, immune strength, and sustainable production in poultry, livestock, and aquaculture.

Backed by a robust research-driven approach and global collaborations, we integrate internationally proven formulations with region-specific technologies to address the dynamic needs of the poultry, dairy, and aquaculture industries. Our diverse portfolio spans feed additives, probiotics, veterinary formulations, and biosecurity solutions—each developed with a strong focus on quality, efficacy, and safety.

Guided by our core principles of Integrity, Innovation, and Impact, Rigel Global Pvt. Ltd. strives to strengthen the food value chain while empowering partners with dependable products and expert technical support. We believe that healthy animals are the foundation of a healthy world, and every solution we deliver reflects this enduring commitment.
